- Agenda for modernization of Higher Education
- Education and Training 2020
- Our Project **"Edu4society"**

Agenda for modernization of Higher Education

1. Improving the quality and relevance of higher education

HOW ?

- Involving employers and labour market institutions in the design and delivery of programmes,
- supporting staff exchanges and
- including practical experience in courses

- ✓ Attune curricula to current and emerging labour market needs
- ✓ Foster employability and entrepreneurship.

Supporting growth and jobs – an agenda for the modernization of Europe's higher education systems , COM(2011) 567 final,

Agenda for modernization of Higher Education

2. Encourage a greater variety of study modes (e.g. part-time, distance and modular learning, continuing education for adult returners and others already in the labour market), by adapting funding mechanisms where necessary.

3. Better exploit the potential of ICTs to

- enable more effective and personalised learning experiences, teaching and research methods (eg. eLearning and blended learning) and
- increase the use of virtual learning platforms.

Supporting growth and jobs – an agenda for the modernization of Europe's higher education systems , COM(2011) 567 final,

Agenda for modernization of Higher Education

4. Linking higher education, research and business for excellence and regional development

HOW ?

- Stimulating the development of **entrepreneurial, creative and innovation skills** in all disciplines and in all three cycles, and
- promote **innovation in higher education** through more interactive learning environments

Supporting growth and jobs – an agenda for the modernization of Europe's higher education systems , COM(2011) 567 final,

Our Project "Edu4society"

1. Addresses the issues arisen from the **lack of relevance** of the education to the labor market requirements generated by the insufficiently developed soft skills :

- entrepreneurship,
- active citizenship and
- lack of professional business conduct,
- unfair businesses practices.

This requires the **engagement off all stakeholders** to support the integration of sustainable business concepts and models, and responsible citizenship into relevant education curricula.

2. Addresses the need for flexible and **innovative learning approaches**, to widen participation to **diverse groups of learners** to resolve **critical sustainability issues** and social innovation needs .

Project "Edu4society"

Social Responsibility
is a central thought

THANK YOU!
